---	---	---

Description of the Activity	<i>Students will plan and conduct an interview with a district leader and solicit responses to the 15 question protocol, including the leader's views of the SBEC 3 Superintendent Domains and 10 Competencies.</i>
--------------------------------	---

Personal Reflection/Learning : Focus reflection on the leadership skill. (Minimum of 150 Words)	<p>I interviewed Dr. Pauline Hargrove, Superintendent of Little Cypress-Mauriceville CISD. She is a great role model for any aspiring leader. She defines leadership as influence and believes that a good leader encourages and inspires people to do something they otherwise would not have done. I was impressed by her dedication to serve the people of the LCM community. She is always willing to talk to a stakeholder about school issues, even if the timing would seem inconvenient. She is also adamant about knowing the members of the school board as individuals and giving each of them the communication they desire. One member may want up-to-the-minute details while another may just want a summary after the event. Dr. Hargrove is careful that each board member receives the desired communication, but is always careful to make sure the information is communicated to all board members. Dr. Hargrove also makes sure that she communicates with faculty, staff, and students, and that they know she is always available.</p>
